### SHORT EMPLOYMENT HISTORY

---

*August–December 2021*

#### **Software Developer, Project Manager**

Turku UAS DenTech Dental Laboratory, Turku

I was part of a 3–4 developer team developing a mouth healthcare mobile app. My job was to program with React Native framework, look for information about technologies needed and suggest solutions to the project owner. Employer was particularly pleased with my work. I also worked as a project manager 4.11.–16.12.2021.

*August 2018–January 2020*

#### **Operator**

Valmet Automotive, Uusikaupunki

My job was to install car hatch and doors to a coachwork, check fastening moments with a special tool and prepare coachworks for painting. The work is highly reliant on teamwork.

*June–August 2017*

#### **Distribution Center Installer**

Adecco Finland Oy, Turku

I built small power distribution centers to block flat apartments in a client company.

*June–August 2015, April–August 2014, July–August 2013*
